Subject: opposition to former friern barnet sewage treatment site as a locally significant industrial use.

Dear Sir/ Madam,

I am writing about the proposed waste site at Pinkham Way.

I live in _____ and I am wholly opposed to the plans that are proposed at the former Friern Barnet Sewage treatment site as a Locally Significant Industrial Use. The loss of any protection for the nature conservation value of the site would be detrimental to the natural and local environment.

I am wholly opposed to the scheme - it has far reaching implications for our safety, health, traffic and pollution. Furthermore we the residents, have received no information about these proposed plans.

The plans proposed for the site are monstrous. The pollution that will be generated will directly touch so many houses and local schools. I am incensed and greatly worried by such plans.

I formally request an assessment of the eco systems and natural habitats on the site to determine its nature conservation value. The Government have now provided the tools for conducting such an assessment which should form the basis of any proposed re-designation.

I look forward to hearing from you

Anna Wright
